

HCI Final Project Design Space

Sprint 1

- Wireframes for ALL SCREENS and component in the application.
- A diagram or document that outlines how you move between pages.
- A list of components that need to be developed and implemented on the pages.

Preliminary screen layouts should have enough details provided such that a developer could build most of the HTML/CSS and have a working user interface. The navigation bar, login / status options, the page width, footer, etc. should all be designed and mocked up in HTML.

																			CSC206	Web Programming	3	evspr	

List of components

- Display current major and any minors
 - Section for core requirements (total # of credits and % progress)
 - Section for major required courses (total # of credits and % progress)
 - Section for each minor required courses (total # of credits and % progress)
- Display when courses are offered and how many credits each is
 - Show where courses can be moved (what semesters offered)
 - Show course prerequisites
- Course status: completed - scheduled - transfer (color codes)
- Display current school year and accrued overall credits
- Schedule view for each semester (total credits)

Geneva College Four-Year Plan									
Degree: Computer Science with-Web & Mobile Technology Minor									
These plans are meant to be used as guides for planning purposes only. The Geneva College Catalog lists official requirements. Students must verify before receiving a degree. Your academic advisor will help you create a plan that matches your academic history and goals.									
YEAR 1									
FALL					SPRING				
SSC 101	Learning & Transition				ENG 101	English Composition			
COM 101 or PHI 100	Principles of Communication				BIB 113	New Testament			
BIB 112	Old Testament	3			HUM 103	Invitation to Humanities	3		
SCS 110	Intro to Natural Science	4			Society: Group A		3		
CSC 133	Survey of Computer Science	3			CSC 101	Structured Programming	3		
MAT 105	Stem Statistical Methods	3							
Total		17			Total			15	
YEAR 2									
FALL					SPRING				
HUM 203	Making the West	3			Society: Group B or C		3		
CSC 102	Object-Oriented Programming	3			CSC 251	Networks & Security	4		
CSC 205	HCI Design & Programming	3			MAT 110	Discrete Math	3		
CSC 383	Database Systems	3			CSC 206	Web Programming	3		
COM 350	Comm Design: Digital	3			Electives		3		
Total		15			Total			16	

List of actions

- Update status of courses (from scheduled to completed) (interface button or something like right mouse click to cycle?)
- Add new course (electives?)
- Drag and drop rearrange courses into schedule view
- Validation (soft warning vs hard block)
- Select student to view their schedule
- Deactivate student when they graduate / transfer
- Sort students by name, major, # of credits

List of pages

- Login
- Change password
- Class management
- Schedule view
